Comments		lacking detail of FTE devoted to FirstLine's account	lacking in detail in executive resumes; declining members equity is a financial concern	invalid proposal due to incorrect term language & non-completion of required amendment.	no current facilities maintenance long-term contracts with simliar scope; only internal references	financials presented are for Enmon Enterprises (though proposal is from JaniKing/Hithe Enterprises), which is what we based the locality on. The training info in the proposal are for custodial staff, not facilities maintenance.	no current facilities maintenance long-term contracts; only 12 months of financials provided; cost proposal includes labor only, no material costs or \$5000 per incident threshold.	Non inclusion of \$5,000 per incident threshold in proposal pricing. Ending owners equity on one year doesn't match the beginning year's equity the next year. Lack of established community involvement and fails to include information on safety and training practices with employees.
