

**October 2, 2020**

Dear FirstLine Families,

As promised, our school will provide you with weekly updates about instances of known COVID-19 positive diagnoses (those in isolation) and exposures (those under quarantine) of our students, faculty, and staff. We will continue to protect privacy and maintain confidentiality around the names of the impacted individuals and ask for your help in respecting the privacy of others.

**We are thrilled to report that as of noon on Friday, October 2, 2020, there are no positive COVID-19 diagnoses and no known exposures among our students, faculty, and staff at any FirstLine School.**

As you know, all FirstLine Schools are following strict protocols to ensure the health and safety of our school communities. For more information about these protocols, please see this easy to use Safety Guide or check out our Safety Videos on the FirstLine Schools website. As always, if you have any questions please call your school front office.

Together we will minimize the spread of the virus and keep our school community safe.

Warm regards,

Sabrina Pence

FirstLine Schools CEO
